### **It's not about coming up with the ideas; it's about putting them into action!**

The Alumni Committee had organized an interactive alumni engagement program named PEHEL in March, 2022. Students were given the opportunity to interact with alumni and receive tremendous insight into the journey of entrepreneurs and the challenges which they faced along the way.

A group of 10 alumni were invited to share their experiences with the students as they embarked on their entrepreneurial journeys from a variety of industries, including financial banks and services, e-commerce, real estate, etc.

The goal of this initiative was to provide students with practical instruction on subjects like: Initial challenges encountered when obtaining capital, Soft Skills and Qualities that top the list of being an entrepreneur.

The event was very interactive and energetic, as students were curious to learn about the experiences of entrepreneurs who started their journey in the same institute. In order for everyone to benefit from the Alumni's experiences and suggestions, the lessons were later shared by the students, with their peers in class.

NLDIMSR is appreciative of the alumni who were gracious enough to take time out of their busy schedules to help our students.

In order to assure that the students have a better comprehension of the technical aspects and that they assimilate in-depth knowledge, the interviews were executed in a job-specific manner.
