## Study In India (SII)

### About the Program

The Study In India (SII) program is a flagship project introduced by the Ministry of Education (MoE), Government of India. The Study in India portal ([www.studyinindia.gov.in](http://www.studyinindia.gov.in)) was jointly launched on 18th April 2018 by the former Minister of Union External Affairs, Late Smt. Sushma Swaraj and former Minister of State for HRD, Dr Satya Pal Singh at the India Habitat Centre in New Delhi. This program seeks to endorse India as a prime education hub for international students by inviting them to pursue their higher education in the country. With an attractive set of salient features, the program is the perfect platform for international students to experience the best of what Indian education has to offer. Therefore, it encourages international students to explore valuable educational opportunities enabled by the top Indian universities.

The added advantage of the Study in India Program is quality assurance wherein it partners up with institutes/universities in India.
